TECHNICAL SKILLS

Softwares/Platforms: jQuery, Bootstrap, REST APIs, Node.js

Software Languages: HTML5, CSS3, JavaScript

PROJECTS

U-Hub | <https://github.com/averyjmiller/u-hub>

Workflow Manager and Co-Developer

- A browser application that takes in user input to display the weather forecast, the headlining news articles, and the important tasks the user needs to accomplish for the day.
- Managed the Git workflow to accomplish work in a consistent and productive manner, and implemented the news article feature. Accomplished developing an easy-to-use application so that users are able to stay organized, informed, and prepared for their day.
- Tools/Languages: HTML5, CSS3, JavaScript, CSS frameworks such as Bootstrap and Tailwind, and REST APIs.

Weather Dashboard | <https://github.com/averyjmiller/weather-dashboard>

Developer

- A browser application that takes in user input to display the current weather conditions and five-day weather forecast for the city that the user searched.
- Accomplished developing an easy-to-use application so that users can quickly stay up-to-date on the current and future weather conditions of any city that they search. Effectively uses local storage to store the user's search history so that users can quickly revisit updated information for previously searched cities.
- Tools/Languages: HTML5, CSS3, JavaScript, Bootstrap, REST APIs.

Code Quiz | <https://github.com/averyjmiller/code-quiz>

Developer

- A browser application that prompts users with coding quiz questions to test their coding knowledge.
- Accomplished developing a fun and interactive quiz game to challenge fellow coders in their programming expertise. Effectively uses local storage to save and display user scores at the end of the quiz.
- Tools/Languages: HTML5, CSS3, JavaScript.

WORK EXPERIENCE

Minico's Italian Restaurant

December 2021 - Current

Lead Server

Westerville, OH

- Prioritize multiple customers in a fast-paced environment to promptly deliver a pleasant experience resulting in a large number of customers who regularly revisit the restaurant.
- Onboard new servers to follow proper protocols and best practices to ensure a safe and efficient work environment.
- Communicate with management on low front-of-house supplies to maintain a continuously stocked inventory.

EDUCATION

Full Stack Coding Bootcamp

Expected graduation October, 2023

The Ohio State University, Columbus, OH

A 24-week intensive program focused on gaining skills in full stack web development.

Kent State University, Kent, OH

Fall 2019 - Fall 2021

Completed 73 credits towards a B.S. in Computer Science.
